CONCRETONE

CONCRETONE is an urban range of concrete imitation plaster available in a wide range of colors. It's a low and high thickness micro fiber reinforced, nanocement, dispersed in an aqueous medium. It can be applied on new to existing walls of indoors and outdoors to give an appearance of fresh to antique concrete specifically in contemporary projects.

It enables designers to create a concrete aesthetic where it would not normally be possible, and at a fraction of the cost of using the traditional material.

Field of application: **CONCRETONE** is an ideal solution for those who desire or create a wall or substrate mimic like original concrete that to without ugly joints and undulations. Concretone is available in a standard base color of cement which can be tinted to obtain various options of colors of earth tone.

Product form: Viscous Paste.

Colour: available in a base colour of cement, can be tinted to obtain various earthy colours.

Luxture's®

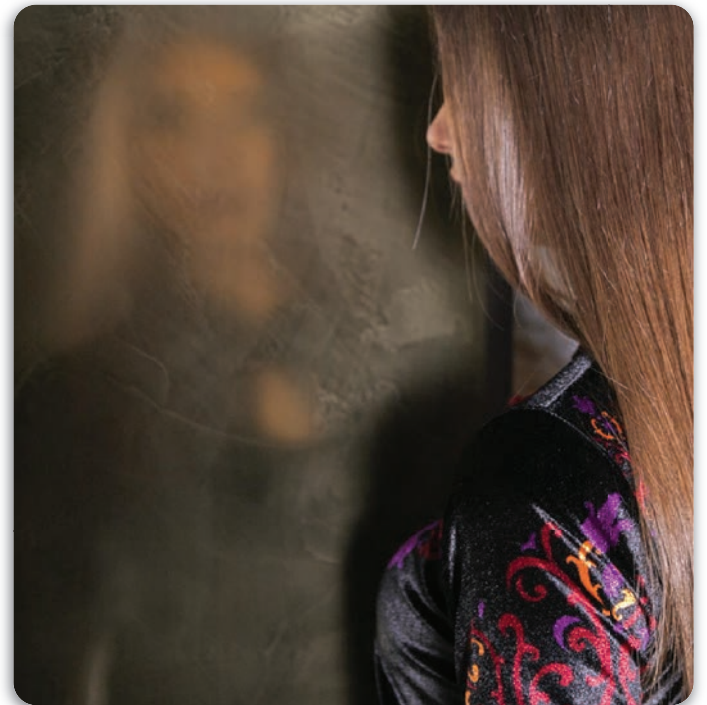

PolishedPlaster

PolishedPlaster is the first low and high thickness Nano cement based aqueous mixture of rare earth clays. The **PolishedPlaster** is a common term for the finishes of some plasters or the upgraded terms of traditional Italian plasters. The term covers the whole range of decorative cemented plasters from the very high polished venetian plasters to the rugged look of textured polished plasters.

PolishedPlaster is a two tone plaster with satin to glossy looks, and the outcome of the aesthetics very much depends on the workers hard work in buffing, playing strokes and the method of application.

Product form: Viscous Paste.

Colour: available in a base colour of cement, can be tinted to obtain various earthy colours.

LIME-N-CLAY

THE HERITAGE PLASTER

Lime and Clay Based Plasters

Luxture's Lime-N-Clay "Heritage Plaster" was born from a love of nature and belief in natural, sustainable building practices. It was the result of over a decade of building and restoring with natural materials, travelling the world to learn about the traditions of Lime & Clay as a building material.

The company has always believed in design being holistic and respectful of the needs of people and planet. We understand that buildings are a leading contributor to greenhouse gas emissions and our mission is to create materials that can do less harm, release less carbon and that are healthier.

From our workshop in India, Luxture Surface Coating Pvt. Ltd. manufacture readily available, affordable and easy to use natural clay & lime based plasters for interiors & exterior.

That Manufactured in Rajasthan - India from abundant raw materials, there are amongst the most sustainable wall finish available.

Lime-N-Clay "Heritage Plasters" are 100% natural and non-toxic, with zero VOC emission and no synthetic or concrete additives, made from readily available naturally abundant materials. They require no processing, only blending. Lime N Clay, our unique blend of Natural Hydraulic Lime (NHL) with mineral aggregates and colourful clays to provide a healthy, breathable finish for interior & exterior walls.

Lime-N-Clay "Heritage Plasters" are recyclable repairable and compostable. They allow buildings to breathe, attenuate acoustics and help regulate, humidity and temperature.

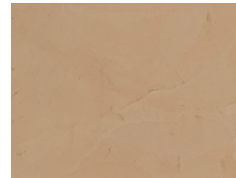

Luxture's Lime-N-Clay Plasters offer high-performance with low environmental impact.

Available in 3 versions

Iconic Walls

////// Create Your Own Masterpiece

Iconic Walls is a microporous decorative coating based on natural minerals like hydraulic lime, purified clay & special additives like micro fibres which add to its durability. The presence of micro fibres strengthens and reinforces the structure, thus contributing to the realisation of greater thicknesses in synergy with the other components. Iconic Walls allows the attainment of top quality finishes, with soft and warm colours, at the same time providing an elegant decoration for interior & exterior surfaces.

- Can be applied on all type of absorbent Surface
- 2-6 mm thick - can take on any shape
- For interior & exterior

Metal Line

The Liquid Metal

The Real Metal Coating for Architectural Sculptures

PURE INDUSTRIAL STYLE

"Filling" the spaces with furnishing and accessories is a fairly common and simple undertaking. Today we need to conceive and interpret the environment to support and enhance their purest architectural vocation, transforming them into spaces that are not only luxurious and refined, but also habitable, comfortable and practical.

Add an elegance to almost any object by using the world class technology brought to you by luxture, "Luxture's Metal Line" Liquid Metal coatings are an ideal solution to seamless craft with metal.

The material, composed almost entirely of real natural metal, retains the inherent properties of metal like texture, lustre, heat conductivity and reflection, once it's applied and polished. "Luxture's Metal Line" coating can be applied in numbers of finishes like textured, smooth & bespoke using stencils.

"Luxture's Metal Line" now a hot choice of architects to bring an element of real metal to walls, furniture, home accessories, garden piece, etc which is not only luxurious but even durable & adaptable to atmospheric conditions.

"Luxture's Metal Line" is the first low and high thickness micro-coating for interior and exterior walls & furniture. Thanks to its chemical-physical characteristics, which allows to obtain the exact version of real metal with & without natural oxidation exposed to the elements in just a few minutes.

Unlimited rust effect tones can be achieved by combining the various bases (Iron Oxidation, Iron with Copper, Copper with Aluminium or with Bronze, etc.) with over three varieties of activators. The natural chemical reactions, together with the various combinations possible mean that truly unique and individual results can be obtained.

Cloudy

Luxture's Cloudy is a water-based, single-component, perfumed metalized decorative finish with a sandblasted effect containing metallic pigments and crystals microsphere, easy to apply and with excellent workability, stain-resistant and anti-mold. It is ideal for interiors and exterior without final protection.

Magnum

Luxture's Magnum is a Decorative wall covering, non-yellowing, permeable to water vapor, perfumed during application, resistant to fungi and bacteria. It's elegant and refined finish is embellished with micro crystals that give the product the preciousness of ancient wall fabrics, soft to the touch with a notable refraction of light and dark lights.

Marmo

Luxture's Marmo is a natural lime based, decorative stucco that makes it possible to recreate a finish with an effect similar to marble. The special formulation of the product, made up of lime, selected marble powder and special additives, gives it an excellent adhesion to the support and a smooth flow in application making it easy and quick to achieve a perfect marble effect.

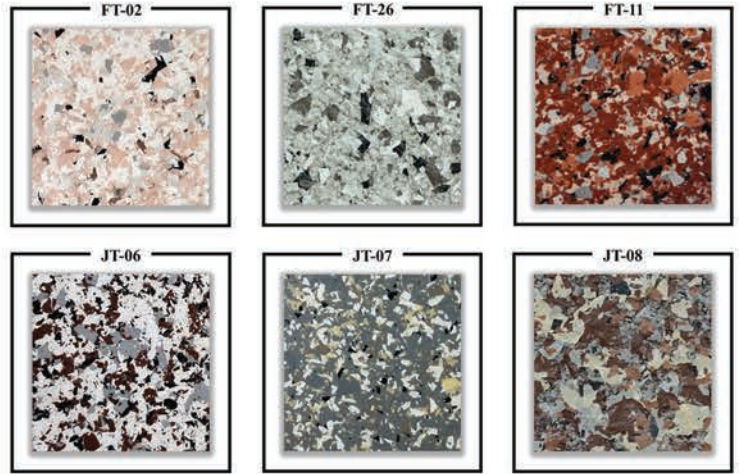

Wall Decor

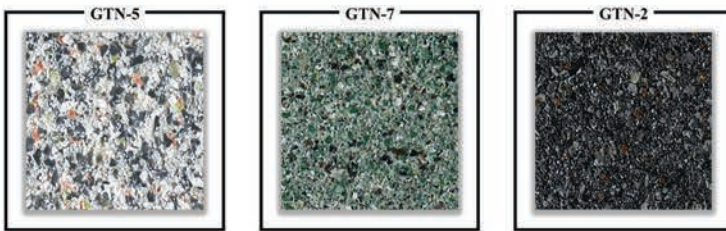

Luxture's Wall Decor with its decorative blends, is the result of study and experience acquired from dedicated research into the antique decorative techniques to take into the third millennium. Wall Decor is available in a vast range of colours. The product's decorative potential, can be seen in the perfect fusion of the shades that create a unique effect that resembles a work of art. The chromatic blends in an extraordinary and vivacious triumph of tones, give rise to a surface charged with energy. The application, on the indicated base coat, is easy and quick to use giving no problems of joints. Wall Decor is washable guaranteeing an elegant decoration that lasts over time. It is highly vapour permeable, has a low odour level is non inflammable and friendly to both humans and environment.

Multi Color

Luxture's ConcreteStain comes with variegated colours, metallic, uneven veins. No matter if you choose an aged or a translucent effect, the important thing is that you will obtain a unique, unrepeatable floor, always different, always beautiful.

It's practical and easy to maintain commercial installations shine with easy to maintain colourful floors. In terms of durability and abrasive resistance, the colour of the ConcreteStain is of a better quality than the concrete surfaces covered with acrylic dyes or other types of resins that can peel, fade or disintegrate quickly. Thanks to their chemical reaction with concrete, 'Luxture's ConcreteStain' become part of the surface. They are not subject to fading, spoiling, cracking or peeling.

Our every surface, a unique work of art. This systems and solutions allow you to obtain a unique, attractive, valuable finish which can only be provided by true artisan craftsmen and quality materials. A surface offering that individual hand finish preferred by those who see no beauty in mass production. This individuality is in the very nature of the core material used, concrete, which provides that imperfect beauty. This finish can create exclusivity in any situation it is used, be it commercial, industrial, municipal, leisure, medical, retail, academic, administration or restaurants. The finishes are hand created by fully trained and registered craftsmen who are regularly updated on new techniques and materials. Shading, Variegated colour effects, Hand produced textures and Irregularities typical of skilled manual work, all come together to produce a custom finish with soul, something that contains a little piece of everyone involved in the creative process from designer, to manufacturer, to artisan finisher, handmade surfaces, beautiful and unrepeatable.

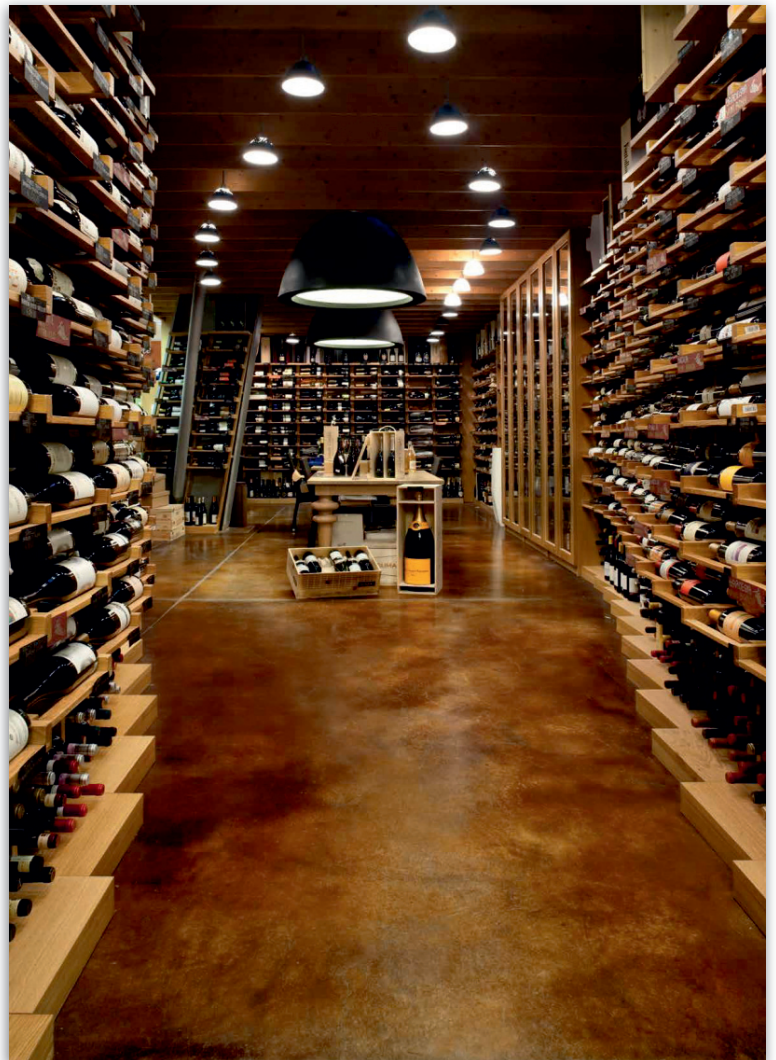

7 Base colours are available, but the possibilities for creating unique colours are endless. Colours and shades can be used and mixed freely, as in a palette, offering a greater possibility of customised colours.

Available colours are:

- Black • Brown • Cola • Green Blue
- Green Yellow • Orange • Red

Features:

- Permanent Colours
- No Peeling, No Fading
- Proper Sealing, make floor dirt & dust proof
- Indoor & Outdoor
